Provide.net Letter of Authorization

First and Last Name:

Thank you for choosing Provide.net for your digital phone service. Number portability allows you to keep your current number while changing your service provider. Upon receipt of this form, we will start the transfer process and work with your existing carrier to transfer your number. The porting process typically can take anywhere from 5 to 20 business days depending on the carrier.

- If you have distinctive ring, a PIC freeze, or a carrier change restriction, it must be removed before porting your number.
- If you make changes to features or services with your existing provider it could delay the process.
- The service address and name on this form must be the same as the records of your current provider.
- DO NOT call your existing carrier to cancel the service while we are attempting the transfer, or you will not be able to keep your telephone number (to make sure that your account has been cancelled, you may contact the carrier five business days after the transfer has completed).
- Provide.net will need a copy of a phone bill or account summary page, dated within 60 days of today, which includes the number to be transferred and the account holder's name. You may send it to support@provide.net or fax it to (734) 480-4780.

Number to be transferred:			This is a wireless number [] Yes [] No
